

### **YWRC Participant COVID-19 Procedure**

If participant is showing any symptoms of COVID-19, has been in close contact with anyone who has tested positive or living with a positive COVID-19 case, please stay home and follow CDC guidelines for length of quarantine. General guideline requires 10 days post on-set of symptoms or 14 days if exposed to positive COVID-19 case.

In all cases, participants must be without a fever for 24 hours without the use of fever-reducing medications before joining an in-person event.

If participant has tested positive for COVID-19 we encourage you to please inform your staff contact if the participant was present for in-person services 48 hours prior to test and beyond. This will allow us to inform necessary employees and other participants of possible exposure.

We will take every effort to notify caregivers/participants if they have been in direct contact with a confirmed COVID-19 positive individual while receiving in-person services.

All in-person services require masks, 6ft of distance and consistent sanitization.
